

To Parents/Senior club members

29 September 2014

Dear parent/club member

BTF child protection policy

In order to follow best practice in line with the British Triathlon child protection policy please be aware that when using changing facilities these may be being used by either adult athletes/parents/coaches or adult members of the general public. In order to ensure the best practice is adhered to could all adults make sure when entering/utilising changing facilities they do so with another adult present and when vacating a facility you make sure that in by doing so you are not leaving a fellow adult as the sole remaining adult in a facility that junior club members are utilising.

Thank you

Mike Swain

Club Welfare Officer
